

I've listen to XM Radio ever since XM became available. I think it?s really heart-breaking what our Country has arrive too. Since when did we allow conglomerate persuade our Government?s thinking. Why not you Congress Men and Women do something just for a change. You messed up in sending our troops to War! At least make amends by leaving XM alone. There're only trying to serve their listeners. After all, it "is" the people who listens to these station not those morons at the, The National Association of Broadcasters (NAB) But - I surely doubt that my e-mail will be hear since you don't listen to little people. If - by chance - someone is reading this, you are probably shaking your head wondering why this e-mailer has so little faith in Congress? Well, it's because Congress has little faith in us. I hope the options are weighed before something moronic is done.
